# WARD BOUNDARIES.

---

## WARD ONE.

Beginning at the intersection of the center line of Main street with the north line of said village, thence running westerly, on the north line of said village, two hundred and forty-six feet; thence southerly, in a line parallel with the center line of Main street, to the center line of Center street; thence easterly, on the center line of Center street, and in the same course continued to the east line of said village; thence northerly, on the east line of said village, to the northeast corner thereof, thence westerly, on the north line of said village, to the place of beginning.

## WARD TWO.

Beginning in the center line of Center street, at the southwest corner of the First Ward, as above defined; thence running southerly, in a line parallel with the center of Main street, to the south line of said village; thence easterly, on the south line of said village, to the southeast corner thereof; thence northerly, on the east line of said village, to the southeast corner of said First Ward, as above defined; thence westerly, on the south line of said First Ward, to the place of beginning.

## WARD THREE.

Beginning in the center line of Washington street at its intersection with the west line of Ward Two, as above defined; thence westerly, with the center line of Washington street to the railroad track; thence southerly two hundred and eighty feet in a line with the center line of Franklin street; thence

southerly, to the center line of Spruce street; thence southerly, on the center line of Spruce street to the village limits; thence easterly, on the said south line of the village, to the southwest corner of Ward Two, as above defined; thence northerly, on the west line of Ward Two to the place of beginning.

#### WARD FOUR.

Beginning in the center line of West street at the west line of the First Ward as defined; thence westerly, on the center line of West street to the center line of Merchants Row; thence southerly, on the center line of Merchants Row, to the northwest corner of the Third Ward, as defined; thence easterly, on the line of said Third Ward two hundred and eighty feet to the railroad track; thence easterly, on the north line of said Third Ward to the northeast corner thereof, in the west line of said Second Ward; thence northerly, on the west line of said Second Ward and the west line of said First Ward to the place of beginning.

#### WARD FIVE.

Beginning at the intersection of the center line of West street with the west line of said First Ward, as above defined; thence westerly, on the center line of West street to the center line of Grove street; thence northerly, on the center line of Grove street to the north line of the village; thence easterly, on the north line of the village, to the northwest corner of said First Ward, as above defined; thence southerly, on the west line of said First Ward to the place of beginning.

#### WARD SIX.

Beginning at a point on the center line of Grove street opposite the center line of State street; thence westerly, on the center line of State street, to the west line of the village;

thence northerly, on the west line of said village to the north line of said village; thence easterly, on the north line of said village to the center line of Grove street; thence southerly, on the center line of Grove street, to the place of beginning.

### WARD SEVEN.

Beginning at a point on the center line of Grove street opposite the center line of State street; thence westerly, on the center line of State street to the west line of the village; thence southerly, on the west line of the village, to the south line of the village; thence easterly, southerly and easterly on the south line of said village, to the center line of Spruce street; thence northerly, on the center line of Spruce street, and on the west line of Wards Three, Four and Five, and on the center line of Merchants Row and Grove street, to the place of beginning.

# TRUSTEES' REPORT.

---

*To the Taxpayers of the Village of Rutland :*

The Trustees for the Village of Rutland submit herewith their report of the orders drawn by them on the treasurer, together with a detailed statement of their expenditures for the year ending April 28th, 1886.

As there has been so much argument *pro* and *con* relative to the extravagance in the expenditures and misappropriation of the funds at their disposal, your Trustees deem it due to themselves to make a report as clear as is possible, that each taxpayer can judge for himself as to the misappropriation of the funds, also as to the propriety of the passing the resolution suspending all work, street lights, police services, etc., in December, 1885, after the Treasurer had notified the Trustees there were no funds in his hands to meet the expenses. Several special meetings were called to devise means to bridge over the matter until the annual meeting, but without avail until February 2d, 1886, at which meeting a vote was passed authorizing the Trustees to raise the sum of \$2,000, and restricting the said Trustees to the said sum of \$2,000 in their expenditures for the remainder of the fiscal year, and without providing any method for raising said sum of \$2,000.

Your Trustees report that nothing has been done in the matter of raising said \$2,000.

Your Trustees have included all bills contracted to the time of making up this report, also all bills that have been presented and were contracted by E. R. Green, the former street

commissioner, from the making of the last report to the time J. D. Ellsworth was appointed his successor.

At the last annual meeting it was voted to instruct your Trustees to raise the sum of \$15,000 to apply on old indebtedness account, which is included, together with the orders this board have drawn against that account.

At the commencement of the year your Trustees requested the Treasurer to give them the full amount of the tax raised for the year, which he did, as follows:—

Highway tax . . . . .	\$ 7,356 06
Sewer tax . . . . .	4,678 25
Village tax . . . . .	11,695 58

Total . . . . .	\$23,729 89
Add receipts for licenses to the above .	\$ 286 00

Making a total . . . . . \$24 015 89

And the board based their calculations for expenditures on the above sum, and supposed that amount was to their credit to draw against.

Your Trustees have drawn orders for the expenses for the current year, as will be seen in detail,

To the amount of . . . . . \$20,156 50

There are bills unpaid, contracted by this

board in amount . . . . . 4,354 99

Total spent and unpaid . . . . . \$24,511 49

Making the sum of \$495.60 over the amount of the tax raised for the fiscal year just ended.

We have placed the sewers built and repaired on a page by itself, also the actual cost of lighting the streets by gas and oil lamps the past year, including repairs and lighting, which is a part of the expense—also report that for the months of

January, February, March and April no oil or expense for oil lamps has been made, and a large number of the gas posts have been frozen so that they could not be lighted, which materially lessens the expense from what it would have been had all the gas posts and oil lamps been burned during that period.

A sewer is badly needed to take the surface water that flows down Temple street and the sewage from the houses just north from Temple street—and a short sewer should be built on Main street, opposite the residence of Mr. S. E. Burnham, and connect with the sewer now laid on Burnham avenue, and extend the Burnham avenue sewer to Church street sewer. Sewers are also needed on East street, south from Washington street to Jackson avenue; from Granger street to Forest street; from Baxter street, south from Mineral street; from Grove street through State street to East Creek, in conformity with the system adopted.

Too much praise cannot be given to the fire department, which is under the efficient management of Engineers Hannum, Eddy and Corcoran, each of whom have labored zealously to keep the department up to its present high standing as a volunteer organization, which is second to no volunteer organization in the land.

To praise the different companies for their past services would be small recompense for time spent and clothing ruined while fighting fires, but that is about all they receive.

Do the taxpayers, as a whole, fully appreciate these brave men?

The "Gamewell Electric Fire Alarm System" was adopted last year and has proved itself of very great value to the fire department, in making their arduous duties less complicated; we believe the outlay will in a very brief period gain the

confidence of its opposers and fully meet the expectations of its advocates.

The police department, though much smaller in proportion to the population than other places, we have found to be efficient and faithful in the discharge of their duties. The good order which prevails and the freedom from the depredations of burglars and other criminals which this community has enjoyed and from which surrounding towns have severely suffered, attest the excellent manner in which our police officers do their duty.

The taxpayers are well aware of the condition of the roadways. Your Trustees would suggest that some measure be adopted at the annual meeting, instructing and providing ways and means for carrying out the same, that your incoming Trustees may be able to avoid the heretofore fatal error of drawing on dirt and again drawing it off.

It will be remembered that a vote was passed at a special meeting, placing one-half of the highway fund to the sewer fund.

The Trustees deeming it advisable, and for the best interests of the village, to try a different system for lighting a portion of the streets a short time prior to the annual meeting, endeavored to contract with the Rutland Electric Light Company that the taxpayers might judge for themselves as to the best system to adopt, but they were restrained by an injunction from the Court of Chancery.

This unnecessary and useless litigation, the expense of which will exceed the cost of electric light for the period proposed, the complainants now wish to withdraw on the proposition that the village pay all its costs, which proposition your Trustees decline to accept.

The Trustees report that the village has not been to the slightest expense in erecting the poles for the electric lights, neither will the village be called upon to pay anything for the same at this or any other time. All propositions from the Electric Light Company, are for the village to pay for the light—all construction, repairs, maintaining and operating expenses are to be borne by the Company and *not* the village.

The reports of the village auditor, treasurer, water commissioner, engineer fire department and attorney, are annexed, and the voters are referred to them for further details.

A death has occurred in the Board of Trustees for the first time since the organization of the Village of Rutland.

SAMUEL HAYWARD, Trustee for the Sixth Ward, died February 28th, 1886.

On Monday, March 1st, 1886, at a regular meeting of the Board of Trustees, the following resolutions were passed unanimously :—

*Resolved,* That the Board of Trustees of the Village of Rutland having heard of the death of one of its members, Mr. Samuel Hayward, this sad intelligence does not come to us unexpected, as he has not been able to meet in council with this board for several months. During this long period he has suffered a most painful illness, which he has borne with great fortitude and resignation.

*Resolved,* That as a testimonial of respect to the memory of the deceased, that the Board of Trustees attend his funeral in a body.

*Resolved,* That we hereby tender to the family of the deceased our sympathy in their bereavement, and that a copy of these resolutions be sent them by the Village Clerk, and also spread upon the village records.

GEORGE R. BOTTUM, *President.*

# Village Attorney's Report.

---

*To the Trustees of the Village of Rutland:—*

In compliance with your request and resolution, "that the Village Attorney prepare a statement in detail of his department, and that the same be incorporated in the annual report," I submit herewith the following report of the business of this office, since April, 29, 1885.

At the time of my appointment to said office, in May, 1885, there were pending in different courts the following suits in which the Village of Rutland was interested.

In the County Court :

Robert Stewart and wife v. The Village.

Marshall Deragon v. The Village.

Admr. Willie Deragon v. The Village.

W. W. Tower and wife v. The Village.

In the Court of Chancery :

The Village v. Darius Carruth.

In the Municipal Court :

J. C. Baker v. The Village.

Robert Stewart and wife v. The Village:—

Petition to the County Court at the March term, 1884, for the appointment of commissioners to re-assess the damages for laying a sewer through the plaintiff's land and discharging the same in Moon brook on his land, east of Strongs avenue. The board of trustees awarded him \$10 for land damages. Being dissatisfied with that amount he brought said petition. Four boards of trustees have advised resisting this claim. In the hearing before the commissioners last summer, Mr. Stewart claimed \$1,000 in damages, which were considered so ex-

travagant, and the rulings of the commissioners were such that your attorney advised the removal of the alleged objectionable part of said sewer entirely from Stewart's premises. This the trustees promptly did, running the same across Strongs avenue and through lands of E. A. Morse and others, who claimed no damage, and discharging the same in said brook at the railroad culvert, at an expense of about \$150. This was accomplished before the hearing was completed, and we have reason to believe saved the village at least \$500 in the award of the commissioners. The report of the commissioners was filed last September term, finding for Stewart to recover \$150 if it was legal for them to consider damages on account of the *discharge* of said sewer, but if not, then he was to recover \$15 by reason of *laying* the same through his land. This question was passed to the Supreme Court and argued last January term. No decision has yet been rendered. The principle involved is an important one to the village.

Marshall Deragon v. The Village.

An action for damages on account of defective sewer on Mineral street. Ad damnum \$2,000. Entered at the March term. This was tried before a jury last September term. After the evidence was in a motion was made by your attorney, assisted by Col. Walker, that the plaintiff be non-suited. This motion was granted by the court. To this ruling the plaintiff excepted and the case passed to the Supreme Court. This case was also argued before the Supreme Court last January term and again decided in favor of the village and to recover its costs.

Admr. Willie Deragon v. The Village:—

Action for negligence, demanding \$2,000, entered at said March term, 1884, and grows out of the same circumstances as the other Deragon suit. It is claimed that the negligence of the village caused the death of the administrator's son Willie. The suit is still pending.

W. W. Tower and wife v. The Village:—

Action for damages for defective sewer on Willow street, causing an overflow on his premises situated on Edson street. Ad damnum \$2,000. This case is still pending. Your attorney has been ready for trial during the past year had one been urged. Further remarks would therefore be improper at this time. It might be said, however, that every extraordinary thaw or severe rain storm supplies Edsonville with a surplus of water, and when it is not interfered with some of it finds its level on the plaintiffs' premises. After every such thaw or storm the plaintiffs appear before the board with a claim for damages. They are now threatening the village with suit for damages done by such an overflow last January.

Village of Rutland v. Darius Carruth:—

Bill in Chancery entered September term, 1882. An injunction was obtained restraining the defendant, in Mendon, from throwing sawdust into the stream which supplies the village with water. The injunction is still in force and we have no reason to believe it has been disobeyed.

Joel C. Baker v. The Village and others:—

This suit was settled during the early part of the year, according to the terms agreed upon by the old board of Trustees, and discontinued.

Since my appointment the following suits have been commenced in the County Court:

John Howley v. The Village:—

Action demanding in damages \$5,000 for defective sewer on Franklin street. Entered at the September term, 1885, and is pending. The deaths of two of plaintiff's children are claimed to have been caused by the negligence of the village.

John McCormack v. The Village:—

Another sewer suit, demanding \$5,000 for negligently re-

pairing, for not repairing and for ill construction of Spruce street sewer, so-called. In this suit, also, it is claimed that two children have died through the negligence of the village. The case was entered at September term, 1885, and is pending.

Marshall Deragon v. The Village:—

This suit was commenced last February, immediately after the decision of the Supreme Court in favor of the village in the plaintiff's other suit already referred to. It demands in damages \$2,000 and is for negligence on the part of the village in respect to the Mineral street sewer. It was entered at the last March term and continued.

Geo. H. Verder v. John D. Ellsworth and others:—

Action of trespass against the defendants who, under the directions of the Trustees, abated a nuisance which was claimed by the Trustees to exist on the plaintiff's premises. Cause entered at last March term and continued.

In Chancery:

The Village of Rutland v. Edward H. Ripley:—

Bill of complaint prepared and filed by your attorney on the 12th day of October, 1885, on which an injunction was then granted restraining the defendant from cleaning out his mill pond in Mendon in such a manner as to pollute said stream which supplies the village with water. This injunction is still in force. Cause has been entered in court and continued.

Wm. M. Field and others v. Wm. B. Thrall and others:—

The history of this case and the hearing on the injunction against the trustees are, so recent and familiar that a review of the facts and circumstances need not be made. It should be said, however, that had the trustees been permitted to carry out their proposed arrangement with the Rutland Electric Light Co. for lighting sixteen electric arc lights as an experi-

ment, the expense of lighting the streets would not have been increased in the least, and the whole amount the Electric Light Co. would have received under the arrangement would not exceed \$44, being less than the expense made in the suit. This amount seems too trivial on which to base a claim for an injunction. The orator's bill has been amended, answers have been filed to the original and amended bills, motion to dissolve the injunction has been argued at length by your attorney and as yet the chancellor has rendered no decision thereon.

V. A. Gaskill and others v. R. R. Mead:—

Petition for mandamus made returnable to the Supreme court in Montpelier on 3d Tuesday in May next, asking that Mead, as clerk of the village, may be directed to correct his records of the village meeting held on Feb. 3d last. The petitioners claiming that the meeting voted \$2,000 to pay for "*gas*, street work and police service" for the then remainder of the current year, and also voted to *adopt* the report of the committee to investigate street lights, not merely to *accept* it. The petition was brought in the interest of the last suit mentioned and to sustain the allegations therein that the trustees were threatening to exceed their powers and misappropriate funds, which were voted to pay for *gas* and not for electricity. Soon after the hearing to dissolve the injunction in the other suit, Hon. W. C. Dunton, the solicitor in said causes, gave your attorney notice not to answer the petition for mandamus, at the same time offering to dismiss the injunction bill against the trustees *without cost*, which the trustees as yet decline to do.

Before Justice Bailey:

Pat Sullivan v. The Village:—

Action to recover wages which had been assigned by the plaintiff to one of our merchants to whom the village paid the wages under the assignment. Trial and judgment for the village to recover its costs.

During the year the village has quite often been summoned before the courts on trustee process, all of which have been satisfactorily disposed of.

Several opinions have been given on matters submitted to your attorney.

The enforcement of the village ordinances might be facilitated by an amendment to the village charter authorizing the policemen in certain flagrant cases to make arrests without a warrant.

There is no other business in this department which needs mention, unless it is that there has been in the past a want of system or lack of precaution and preparation on the part of the officers in the various departments in obtaining and keeping a record or memoranda of all facts, circumstances, names of witnesses and other data, connected with claims and demands which result in litigation with the corporation. Owing to the change, usually at each annual election, in the officers of the village, the incoming trustees and new officers being generally total strangers to the circumstances, witnesses and other data material to a defense, the village in the past has quite frequently been compelled to pay large damages where no liability whatever existed against it. A suit is *commenced* under one set of village trustees and officers, and usually is paid by their successors, who "know nothing about the matter," as they will tell you, and so they settle. This method and lack of such data in the preparation for defense are responsible in no small degree for unjust and unreasonable demands made against the village, and for the numerous suits now pending against it. Where the village is liable, a fair adjustment of a claim should always be made if possible, otherwise, firmly resisted.

Before the title of "village attorney" is subscribed to this report, it ought to be stated that there is no such official provided for by the charter or by-laws, but the trustees have annually employed an attorney in behalf of the village.

Respectfully,

F. G. SWININGTON,

*Village Attorney.*

# AUDITOR'S REPORT.

*To the Village of Rutland :*

I have examined the accounts of your Trustees, Water Commissioners and Treasurer, and find the charges made in their accounts sustained by vouchers as required by law, and herewith beg to submit my report.

The liabilities on account of the water department are as follows :

## BONDED DEBT.

Bonds, 4½s due July 1881 (extended).....	\$ 5,000 00
4½s due August, 1891.....	5,000 00
5s due July 1893.....	25,000 00
5s due January, 1897.....	6,000 00
5s due January, 1899.....	13,500 00
5s due July, 1899.....	18,000 00
	<hr/>
	\$72,500 00

## ESTIMATES FOR ENSUING YEAR.

### ASSETS.

New pipe on hand.....	\$ 1,600 00
Income from water permits.....	15,000 00
Cash in hands of commissioners.....	50 48
	<hr/>
	\$16,650 48

### LIABILITIES.

Order No. 536, unpaid.....	\$ 1,601 40
Order No. 547, unpaid.....	450 00
Coupons due, unpaid.....	412 50
Coupons maturing this year.....	3,575 00
Ordinary expenses, estimated.....	3,000 00
	<hr/>
	9,038 90
Apparent surplus for the year.....	<hr/>
	\$7,611 58

A part of the above surplus will doubtless have to be used in making necessary extensions. The \$5,000 extended bonds can be retired at the option of the village, and if the receipts warrant, the commissioners

will probably pay these bonds. The other liabilities of the village are as follows :

Orders No. 1536, $4\frac{1}{2}$ per cent due June, 1887.....	\$2,500 00	
“ 1537, “ “ “ 1888.....	2,500 00	
“ 1538, “ “ “ 1889.....	2,500 00	
“ 1539, “ “ “ 1890... ..	2,500 00	
“ 1540, “ “ “ 1891.....	2,500 00	
	<u>          </u>	\$12,500 00
Orders prior to 1885 (detailed below), unpaid. ....	\$ 318 39	
Orders drawn in 1885 “ “ .....	371 00	
Interest upon above.....	112 00	
Interest upon \$15,000 funded $4\frac{1}{2}$ per cent.....	675 00	
Order No. 1535 due June, 1886... ..	2,500 00	
Bills in hands of trustees unpaid.....	4,500 00	
	<u>          </u>	\$8,476 39

#### ASSETS.

Cash in hands of treasurer.....	\$225 35	
Cash due from A. T. Woodward, collector .....	706 26	\$931 61
To be provided for this year.....		<u>          </u>
		\$7,544 78

#### TRUSTEES ESTIMATES FOR ENSUING YEAR.

Miscellaneous expenses.....	\$ 5,000 00	
Police department.....	2,500 00	
Fire department, including new hose.....	4,500 00	
Street lights.....	5,000 00	
Sewers.....	8,000 00	\$25,000 00
	<u>          </u>	
Amount to be provided for by tax.....		\$32,544 78

The above amount will require a tax of 65 cents upon the grand list, in addition to the usual highway tax of 15 cents. There is an increase of a little more than \$3,000 00 in the net liabilities as compared with the report for last year. A glance at the reports for the past four years show that the average rate of taxation for the village and sewer purposes has been 29 cents per annum of the grand list. It may not be amiss to call the attention of the taxpayers to the fact that to provide for obligations matured and to mature this year, together with the amount required for the ensuing year, as per Trustees' estimates, will require an advance in the rate of taxation, over the average for the past four years, of one hundred and twenty-five per cent. This rapid ad-

vance in the rate of tax required must soon be stopped, either this year, next year, or at no distant date if we would preserve the credit and enhance the prosperity of our village, as it must be patent to all that our increase of expenditure is out of all proportion to our increase in wealth or population. I have not attempted to criticise any methods pursued in the administration of your affairs, but simply tried to place before you such facts as I have been able to glean from the reports of the village and the books of your officers.

JOHN N. WOODFIN, *Auditor.*

Rutland, Vt., April 17, 1886.

I append a list of unpaid orders :

No. 179, 1878.....	\$ 96 00
194, 1878.....	150 00
40, 1881.....	42 53
1032, 1883.....	10 00
1127, 1883.....	18 00
1213, 1884.....	1 86
1529, 1885.....	350 00
1553, 1885.....	16 00
1714, 1886.....	5 00
	<hr/>
	\$689 39

N. L. DAVIS,	

Rutland, Vt., April 16, 1886.

# ENGINEER'S REPORT.

---

The undersigned, Chief Engineer of the fire department of the Village of Rutland, agreeably to the provisions of section 4 of "An Ordinance Establishing a Fire Department," herewith submits his annual report of the property belonging to the department, the condition thereof, the losses by fire and causes thereof, the insurance thereon, "so far as may be ascertained," etc., as required by said ordinance.

## FIRES.

During the past year the department has been called to and rendered services at fires as follows :

1885.

- May 8, Alarm, box 37, H. L. Verder's house, situated on Strongs Ave., occupied by E. Peck; damage on house small; Mr. Peck's loss on clothing, \$200; fully insured; cause unknown.
- May 18, Alarm, box 47, D. & H. C. R. R. Co., passenger car; loss small; cause, spark from locomotive.
- June 5, Alarm, box 16, Mrs. H. H. Baxter's house on Grove street; loss small; cause, defective fire-place; no insurance.
- July 15, Alarm, box 14, Cramton & Willis' house on Church street; no damage; cause, breaking kerosene lamp.
- July 30, Alarm, box 47, Central Vt. R. R. Co.'s building, used for brass foundry; loss small; insured; cause, accidental.
- Aug. 17, Alarm, box 15, S. G. Dunton's house on North street; house total loss. Although this was outside the corporation the department furnished all possible assistance.
- Aug. 25, Alarm, box 26, caused from a pile of weeds burning on Woodstock avenue.
- Aug. 30, Alarm, box 32, John Duffy's barn and shed on East street; loss, \$400; insured for \$100; cause unknown.
- Oct. 7, Alarm, box 45, C. F. Richardson's block on Center street; fire in basement under W. H. Lease's harness shop; loss slight; insured; cause accidental.

- Oct. 31, Alarm, box 26, J. A. Sheldon's house on Main street; loss small; caused by defective chimney.
- Nov. 11, Alarm, box 47, Kate Ready's house, corner Strongs avenue and River street; loss small; insured; cause, ash barrel.
- Nov 17, Alarm, box 42, Central Vt. R. R. Co.'s rail shop; loss, \$50; insured; cause unknown.
- Dec. 21, Alarm, box 19, Holmes' building, corner West and Forest streets; loss small; insured; cause unknown.
- Dec. 23, Alarm, box 34, E. A. Morse's barn on Main street; no damage; cause, breaking lantern.
- Dec. 30, Alarm, box 34, R. M. Spaulding's barn on Main street; partly destroyed; loss, \$600; loss on hay, grain, etc., \$150; insured; cause unknown.
- 1886.
- Jan. 15, Alarm, box 53, Gas house on Union street; damage slight; caught from the gas generator; insured.
- Jan. 31, Alarm, box 34, S. A. Brock's barn on Main street, occupied by R. M. Spaulding as a stable; barn total loss; insured for \$300. Mr. Spaulding lost eight horses, together with harness, hay, grain, etc.; loss, \$1,275; insured; cause unknown.
- Feb. 1, Alarm, box 61, Thomas Dolan's house, corner Forest and South streets; damage slight; insured; cause, boys playing with matches.
- Feb. 2, Alarm, box 45, M. & H. O. Edson's barn on West street; damage slight; insured; cause, breaking kerosene lamp.
- Feb. 11, Alarm, box 34, Mrs. Bailey's barn on Green street; loss small; no insurance; cause, supposed to be incendiary.
- Feb. 12, Alarm, box 32, Congregational church sheds on Court street; damage slight; no insurance; cause, supposed to be incendiary.
- Feb. 22. Alarm, box 45, George Richardson's livery stable on Center street; partly destroyed; building insured for \$4,500; damage to building, \$1,670; carriages, sleighs, robes, etc., insured for \$6,500; loss on carriages, sleighs, etc., \$1,900. Mr. Quinn's stable was also slightly damaged; loss covered by insurance; cause unknown.
- Mar. 3, Alarm, box 42, M. Brown's house on Franklin street; partly destroyed; loss covered by insurance; cause supposed to be incendiary.

- Mar. 9, Alarm, box 42, J. M. Putnam's barn, corner Washington and Wales streets; partly destroyed; loss covered by insurance; cause supposed to be incendiary.
- Mar. 20, Alarm, box 34, Michael McLaughlin's house and barn on Green street, located outside the corporation, the distance being so far from water the department could be of no assistance.
- Apr. 15, Alarm, box 34, B. H. Wilkins' barn on East street, occupied by E. L. Kimball; barn, total loss; no insurance; Mr. Kimball's loss covered by insurance; cause, supposed to be incendiary.
- Apr. 17, Alarm, box 47, Mrs. G. C. Ruggles' barn on Evelyn street; no \* loss; cause supposed to be incendiary.

Your apparatus for extinguishing fires consists of one hand engine built by Cowing & Co.; one hand engine built by Hunneman & Co., with hose carts; one second-class steam fire engine built by the Amoskeag Mfg. Co., with hose carriage; one hook and ladder truck, with ladders, hooks, etc.; four hose companies as follows: J. W. Cramton Hose Co. No. 4, H. H. Baxter Hose Co. No. 5, J. A. Sheldon Hose Co. No. 6, J. D. Hanrahan Hose Co. No. 7. All the companies are fully manned and commanded by efficient officers.

The Gamewell fire-alarm system consists of five miles of wire, 15 alarm boxes, 1 bell striker, located in the tower of the Congregational church, 1 indicator, located at the Central Vt. R. R. machine shop, 3 engineers' gongs. The batteries, etc., are located at the Telephone company's central office.

I would recommend the purchase of 2,000 feet of hose, as our old hose is in poor condition. This I consider would be economy for the village, as it would give each reel a change. At present, after a fire it has to be placed back on the reels before it gets thoroughly dry, and of course decays much faster than hose that has proper care. The 2,000 feet of hose purchased two years ago is in good condition.

I would call your attention to your hook and ladder truck and ask if any taxpayer in Rutland ever saw in any fire department such a thing for such a purpose as carrying ladders, hooks, etc. It is in very poor condition, the trusses are nearly all broken, and in fact it is all to pieces. It is too heavy for any body of men to draw and a little more than a span of horses can do to draw it up hill, as a great many can testify by the trouble we have every inspection day in getting up Washington street. Quite an outlay will be necessary to put it in any kind of shape.

I would recommend the purchase of a new truck instead of laying out any more money on this worthless thing. A good truck would add much to the efficiency of your department.

The indicator in the machine shop which did not work satisfactorily has been exchanged for a new one, which does its work perfectly.

I herewith present a statement of the village property in charge of each company, the location of hydrants, also the location of fire-alarm boxes and keys thereto, and a list of officers and members of each company.

#### CONCLUSION.

My acknowledgements are due the officers and members of the department for zeal and efficiency in performance of all their duties.

Respectfully,

K. K. HANNUM,

*Chief Engineer Fire Department.*

Rutland, April 19, 1886.

# Annual Village Meeting.

The legal voters of the village of Rutland are hereby notified that the annual meeting of said village will be held at the Town Hall, on Washington Street, Wednesday, April 28, 1886, at 2 o'clock p. m., to act on the following business:

1st. To elect by ballot the following officers, to serve for the ensuing year; A President of the Village, Clerk, Treasurer, Tax Collector, Auditor of Accounts, Water Commissioner in place of W. C. Landon, Judge of Municipal Court, Chief Engineer, First Assistant Engineer and Second Assistant Engineer of the Fire Department, and seven Trustees, one from each Ward.

2nd. To hear reports from Trustees, Chief Engineer of the Fire Department, Water Commissioners, Treasurer, Auditor, Village Attorney and Street Commissioner.

3rd. To see if the village will vote to alter any of the by-laws or ordinances, or make any new by-laws or ordinances.

4th. To see what alteration if any the village will make in section 2 of its ordinances, in respect to lighting its streets, or what new or further ordinance if any the village will make in respect thereto, and what kind or kinds of light and what system of lighting, if any, the village will adopt, and what contract, if any, the village will authorize the Trustees to make for such lighting, and what provision, if any, the village will make for the expense thereof.

5th. To see if the village will amend section 2 of its ordinances, so as to make it the duty of the Trustees to light the streets, subject to the direction of the village.

6th. To see what system of lighting the streets the village will adopt, whether by gas and oil, or by the Thompson-Houston Electric Light, or by other means.

7th. To see what contract, if any, the village will authorize the Trustees to make for carrying out such system.

8th. To see if the village will vote a special tax for the expense of such system of lighting its streets, or will include such expense in the current expenses of the year, and provide for the same by the usual general tax.

9th. To see if the village will vote to appropriate a portion of the highway tax toward the building of a permanent roadway in a section of Merchants Row or Center Street, and if so, what amount.

10th. To see what action the village will take at said meeting towards paying the President and Board of Trustees for their services during the past year.

11th. To see if the village will vote a tax to pay the debts and current expenses for the year ensuing.

12th. To see if the village will vote to instruct the Board of Trustees to build sewers on State Street, from Grove Street to East Creek, and on East Street from Washington Street to Jackson Avenue, Burnham Avenue to Church Street, from Main Street west on Garden street to Church Street sewer, Baxter Street south from Mineral Street to intersect with State Street sewer, South Street sewer from Granger to Forest Street, in conformity with the surveys made.

13th. To see if the village will vote to instruct the Board of Trustees to provide a sewer to carry off the surface water which flows down Temple Street on to Main Street.

14th. To see if the village will vote a special tax for sewerage purposes.

15th. To see if the village will vote to sell any of its hand fire engines.

16th. To see if the village will vote to instruct the Trustees to purchase 2,500 feet of new hose for the fire department.

17th. To see if the village will vote to pay the Rutland Electric Light Company for Electric Lights used for lighting the streets, to April 28th, 1886.

18th. To see if the village will vote to adopt the method of collecting taxes as provided in Act No. 90, enacted by the General Assembly of Vermont, December 23, 1880.

19th. To transact any other necessary business.

R. R. MEAD, CLERK.

Polls will be open from 2 till 5 p. m.

Village Clerk's office, April 17, 1886.
